UNOFFICIAL

Hi [REDACTED]  
We'll get back to you shortly on the specific meeting details for Friday (where/ when etc.).

In the meantime, I would like to clarify with you what ought to be included in the "source control" meeting, in particular as relates to the letter points from 28/ 9/16.

- Obviously included: letter items 42 and 43 (relief well MODU mobilisation, capping stack options, weather allowances, seasonality and the like)
- Not so sure: letter item 44 (subsea dispersant delivery equipment from Houston)
- Not included (because mislabelled in letter): letter items 45 and 46 (aerial dispersant spray platforms)

Are there any other letter points that you feel ought to be considered for the "Source Control" meeting?  
We look forward to hearing who you intend to bring along to this meeting so that we can ensure appropriate attendance from our side.

Kind regards,  
[REDACTED]

**Subject:** oil spill clarification meeting - items for discussion

Hi [REDACTED] – Items for clarifications for Tues meeting re oil spill RFI questions are below. I have not included source control in this meeting, purely ‘traditional’ oil spill response, as from our end, this is a different team of people involved. I will get back to you ASAP to set up a time to discuss source control. However, Fri 14<sup>th</sup> looks like it might be a good option – does that work for NOPSEMA folk?

With regard to the below table, BP has on what additional information we believe NOPSEMA require, and we would like to take this opportunity to seek confirmation that our thinking is correct. With regard to the items where we are seeking clarification as to why additional information is required, we are seeking this information so that we can understand what additional information is required.

Regards – [REDACTED]

Item	Clarification question
30 (1 <sup>st</sup> dot)	Discuss additional information required

33/34	Clarify why this information is required
36	Clarify why this information is required
37	Discuss additional information required
50/51	Discuss additional information required
