Hi [REDACTED],

It looks like a late night for you this evening!

Thanks for the draft ToR which I'll discuss with the team tomorrow.

(I've been on my Churchill Fellowship over recent weeks so I'd like the views of my colleagues before responding).

Regards
Stuart

Hi Stuart

DEE and DIIS have been discussing the terms of reference for the Coalition's election commitment to an audit by the Chief Scientist of NOPSEMA's consideration of exploration in the Great Australian Bight – the attached represents where we have landed. The intention has been to keep it as close to the media release (also attached) as possible. We would be interested to hear if you have any concerns with the draft, or suggestions for improvement, while maintaining consistency with the commitment.

The TORs have not been shared with Ministers' offices but I think the intention is for us to be ready to provide a final draft when offices are up and running.

Happy to discuss
